

Fito Gen Essentials

eGen Labs Web Platform - MVP one-pager sample asset

This PDF is a foundation sample used for the accepted MVP baseline.
It demonstrates public/private PDF visibility management without adding
a full asset manager or a gated campaign workflow in the same step.

Current MVP highlights:

- Controlled download registration and delivery shell
- Transactional email flow with Brevo fallback logic
- FAQ, blog, and public site foundations
- Newsletter, contact, and enterprise forms
- Desktop update/news/telemetry feedback foundations
